

# WELD TEAM

## **WELDTEAM BIMIG 150**

**For all metals**  
**(steel, stainless steel, aluminium)**

### **Product advantages :**

- Non-stop arc welding
- Versatile wire feed MIG welder : solid wire with gas for welding all metals (steel, stainless steel and aluminium) and flux-cored wire gasless for steel welding
- Semi-professional machine
- Thermal protection
- Supplied ready to use :
  - Ground cable
  - Earth clamp and 2 meter welding cable
  - Welding torch
  - Spool of flux cored wire
  - Hammer with brush
  - Welding handshield
- 2 years warranty

### **Technical specifications**

#### **Primary specifications**

Single phase supply	Volt	230
Frequency	Hz	50 – 60
Effective consumption	Amp	9
Input power (max)	KWA	2,5

#### **Secondary specifications**

Welding current range	Amp	30 – 145 A
Duty cycle	Amp	115 A à 15%
Welding steps		4
Wires	Mild steel	Ø0,6 – 0,8 mm
	Inox	Ø0,8 mm
	Aluminium	Ø0,8 mm
	Flux-cored	Ø0,9 mm
Insulation class		H
Protection class	IP	21

#### **Standards**

- EN 609741-1
- EN 50199

Dimensions	mm	240x510x460
Weight	Kg	23,5

<b>Code</b>		<b>W 000 075 006</b>
